DETAILED ACTION

Allowable Subject Matter

1. Claims 1-4 are allowed.
2. The following is an examiner's statement of reasons for allowance: Regarding claim 1, prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the dependent claims, in such manner that a rejection under 35 U.S.C 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims, which at least include a lens drive device to be detachably mounted to a lens device body, the detachable lens device braking characteristic setting device which changes settings of the braking characteristic according to the signal received from the input device, wherein a brake works before one of a wide angle end and a telephoto end can be changed as claimed.

Regarding claim 4, prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the dependent claims, in such manner that a rejection under 35 U.S.C 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims, which at least include a lens drive device to be detachably mounted to a lens device body, the detachable lens device braking characteristic setting device and a display portion attached to the various types of lens device bodies for displaying the status of the lens; and a switching portion for switching the display to correspond with the changing of the braking characteristic where in the braking characteristic is an amount of acceleration at a time a lens is stopped at the telephoto end or at the wide-angle end as claimed.

Art Unit: 2873
